VENUES

DOKK1

Aarhus' new main library

Dokk1 offers different experiences and activities as well as space for contemplation and tranquillity. In the new building you will find digital media, a café, project working rooms, halls, study cells, playgrounds and much more. Dokk1 was designed by Schmidt Hammer Lassen Architects and is part of the conversion of Aarhus inner harbour from industrial harbour to city space.

GAMMEL ESTRUP

Manor Museum

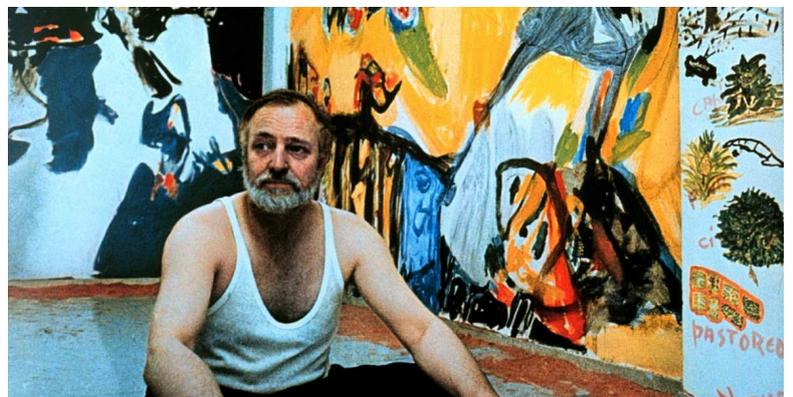

Gammel Estrup – The Manor Museum presents the lives of both masters and servants from the renaissance to the early 20th century. The manor house is arranged so visitors move chronologically through interiors of the various periods. Outdoors, visitors can walk around the beautiful gardens – the symmetrically laid out baroque garden, and behind them the orchard.

MUSEUM JORN

Art Museum

Working Alongside Asger Jorn. Museum Jorn would like to take you on a tour of Asger Jorn's artistic universe. The exhibition uncovers Jorn's practical work methods and techniques as well as disclosing the artistic ideas behind his works. Asger Jorn's art was not meant for decorative purposes. He and his artist colleagues were convinced that art can make a difference.
